E-MAIL: [cmerithew@southsiouxcity.org](mailto:cmerithew@southsiouxcity.org)

## **For Immediate Release:**

**Date:** April 2, 2020

**Prepared by/ Contact Person:** Chief Clint Merithew

## **“Hydrant Flushing”**

The South Sioux City Fire Department is in the process of flow testing and flushing fire hydrants throughout the City this month. This is in part of assuring the hydrants are operable and accessible for the fire trucks when needed. You may experience a slight discoloration in your water lines as this is the normal side effect of flowing hydrants that have not had water flowing thru those lines for a period of time.

If you see a discoloration in your water, let the water run until it has cleared.
