

On behalf of Siouxland Cyclists, Inc., we most heartily recommend South Sioux City be considered to be awarded a “Bicycle Friendly Community”. Our members come from a wide area, but many live in South Sioux City as well. We have always received great cooperation from the City when we hold bike-related events in their town. The City has always kept the bicycle rider in mind as they update the local streets.

While our organization was not formally started until 1982, some of our members go all the way back the original RAGBRAI, which started here in Sioux City in 1973. We are also pleased to be working with RAGBRAI this year as they are once again duplicating the original beginning and end cities – Sioux City and Davenport – the first time this has happened since 1973.

Please feel free to contact me if you need additional information. Thank you.

Sincerely,

Dick Billings  
President and RAGBRAI Coordinator  
Siouxland Cyclists, Inc.
