Re: City of South Sioux City – Bicycle Friendly Community Award

To Whom It May Concern,

The Board of Directors of the Sux Tri Club is pleased to offer this letter of recommendation to the City of South Sioux City's application to be a Bicycle Friendly Community. The City of South Sioux has proven time and time again how supportive they are for the growth and wellness of our community. They maintain one of the nicest paved trail systems in the Siouxland region. Their leadership from the City Council and their focused staff are very accommodating and supportive to the community and they are always looking at ways in which they can improve their existing trails.

Specifically, the City of South Sioux City was critically important to the success of the 2014 Siouxland Kids' Triathlon. The Sux Tri Club, along with the YMCA and the City of South Sioux City, organized a triathlon for kids during the Summer of 2014. The city's willingness and cooperation were critical components to the success of this event. The city's Parks Department volunteered time, resources, equipment, and staff for several weeks leading up to and after the event.

Without the City of South Sioux City's belief in the health and wellness of the Siouxland community, events like the Siouxland Kids' Triathlon would never be a success.

Sincerely,

Matt Campbell
President
Sux Tri Club
