Kindness Sculpture

Imagine a world of profound kindness, a social connection encouraging people to live, grow and thrive. Kindness sustains us in our quest to create an environment where kindness and empathy is celebrated. Kindness sustains us in our quest to create a kinder and more compassionate world. The ripple effect of kindness is undeniable, benefiting the giver and the receiver. Universally, kindness advances opportunities to strengthen family and community, enhance physical, emotional, and spiritual health; reduce crime, bullying, and domestic violence; improve learning experiences; and increases acceptance of all. Enjoy these sculptures and join us in making kindness the norm in Siouxland, creating positive change today, tomorrow and for years to come.
