SEPTEMBER 2022

CARDINAL Pride

Clean up, Spruce up
South Sioux City Fall Cleanup

It's City Fall Cleanup time! South Sioux City Fall Cleanup week is **October 3rd-7th, 2022!**

Tree debris pickup will be Oct. 10th-14th, 2022. Please wait to set

out tree debris until this week.

Pick up for each week will be ON your normal trash pick-up day. Please set out items at the end of your driveway or in the parking area only *the night before* your normal trash pickup day. The parking area is the grassy area between the curb and the sidewalk. Residents are asked to please park in their driveway on pickup day and don't park in front of the debris. This will aid in the safety and efficiency for the cleanup crews.

NO glass, paint, liquids, tires or trash amount over 1 pick-up load will be allowed. Notice will be given to customers for the items listed or with more than a pickup truck load. It will then be the resident's responsibility to remove remaining garbage or tree debris. Garbage clean up is *only* in the fall.

Tree debris included for pick up must be *less than* 4' long, not over 4" in diameter and can *only* be tied together with *string or twine*. **NO rope or wire!** No more than 1 pick-up load allowed. Residents will be given notice if over 1 pick-up load etc. it will be their responsibility to remove remaining debris. Tree pick up is *only* in the fall.

Crews only make one pass for the clean-up each week, if items are set out after that pass it is the resident's responsibility to remove.

If you have questions please call **Gill Hauling Inc. 402-404-3035**

We ask for resident patience during the week of Fall Cleanup. This is a great program for the city, but safety to the workers is number one!

South Sioux City Public Works

left to right Rosalia Macias Ibarra, Elyssa Christensen and Christina Perez

Apples from the Orchard should be ready to be picked up soon. For more information please go to the South Sioux City Orchard Facebook page or call the Parks office at 494-7540

FALL STORMWATER TIPS

Sweep up grass clippings and fertilizer from driveways, sidewalks and streets, and rake, mulch or compost yard waste. Fall is the best season to fertilize your lawn and control common weeds. Weed and feed responsibly. Use fertilizers and pesticides only as needed and always read and follow product instructions carefully. During routine fall tune-ups, check your car and lawn equipment for leaks. A good rainstorm can send gasoline and oil drips from automobiles, lawnmowers and power equipment into waterways. In urban areas, stormwater carries pollutants directly into the water ways through the storm drainage system. Unlike our household wastewater, stormwater doesn't go through a treatment plant first, but is dumped directly into lakes, rivers and wetlands.

South Sioux City

Recycling Tips

Plastics- #1 thru #7- all cleaned and dry

of materials that came in them

Cardboard-Broken down and flattened boxes **without** any plastic liners or Styrofoam that came in them

Paper- Office paper, envelopes, computer paper junk mail, magazines, Telephone books, and paper sacks

Aluminum and Tin cans-rinsed of any product that came in them

Glass is NOT accepted

If you would like to *start* recycling and *need* a bin please or replace your bin with a new recycle cart call Gill Hauling at 402-404-3035

Siouxland Freedom Park still collecting items for the Brigadier General Bud and Doris Day Interpretive Center

The archival process is still open for items to be displayed in the Interpretive Center at Siouxland Freedom Park. If you have an item or items from any conflict (dating back to the Civil War or earlier), we'd be interested in evaluating them for possible inclusion as temporary or permanent exhibits. Simply go to our website Siouxlandfreedompark.org, click on the Donate Items line and follow the instructions. Not all artifacts can be used, but we are interested in evaluating as wide a collection of material as possible. Items considered appropriate for display may be loaned or donated. Even though our acquisition deadline has passed, we'd still like to know what is available in our area. Thank you for your consideration.

Coffee with a Cop

In conjunction with National "Coffee with a Cop" Day, The South Sioux City Police Department will be hosting South Sioux City "Coffee with a Cop" event on Wednesday, October 5th. "Coffee with a Cop" is a great opportunity for the public to come in, get a cup of coffee, and sit down with an officer from the South Sioux City Police department. We encourage you to come, get to know us, ask us questions, and let us know your concerns. We will be posting the locations of our Coffee with a Cop on our Facebook page. Hope to see you then.

River Birch Tree

These trees prefer full sun but will tolerate partial shade. They tend to grow between 40 and 70 feet (12-21 m.) in height. Growing River Birch Trees in the Landscape In nature, you will most likely find a river birch tree growing near water. Because of its affinity for wet, heavy soil, planting a river birch tree can fill in spaces where nothing else seems to grow. If you have water on your property, consider lining it with river birch trees. If you don't, planting a river birch tree or two in your yard will make for an attractive specimen and shade tree. Surround the tree with heavy mulch to help keep the roots wet and cool. River birch trees can be grown direct from seed or planted as saplings. When seeds or saplings are starting out, it's important to control weed competition nearby either with weed fabric or select herbicidal spraying. Read more at Gardening Know How: Planting A River Birch Tree: Tips On River Birch Tree Growing <https://www.gardeningknowhow.com/ornamental/trees/birch/planting-river-birch-trees.htm>
